

THE
ZOFFANY
COLLECTION

HEATHFIELD & CO

AN INTRODUCTION

The Zoffany Collection has been designed to directly complement Zoffany's own exquisite range of luxury wall coverings, fabrics, furnishings and accessories.

The lighting range highlights Heathfield & Co's expertise in traditional and highly skilled craftsmanship. Many of the range's designs incorporate free-blown glass and sculptural ceramics, finished with a diverse palette of textural and tonal glazes. Though the range utilises a continuous, cohesive design language, it also incorporates a spectrum of influences and styles.

A wide choice of lampshade designs, fabrics and linings can be specified for each design. Customers can also specify their own unique lampshade fabrics and linings as part of our 'Customer's Own Material' (COM) service. Additionally, a range of flex options are available for each piece to support your creative vision.

Any slight variations in finish across the range ensure each piece remains unique and reflects the emphasis that we value and place on the authenticity of hand-crafted design.
