

Textiles with double effect

[Arguments for flame retardant, antimicrobial fabrics]

- Wide choice of product, many possible applications, curtains, drapes, bedding, roller and vertical blinds, awnings, room dividers, furniture fabrics, wall coverings
- Permanently flame retardant and antimicrobial without additional finishing agents
- The properties cannot be washed out as they are integrated in the fibre
- Inhibits growth of bacteria in/on the fibre
- Inhibits microbial formation of odours in/on the fibre
- Compatibility with skin
- Contributes towards improving cleanliness and freshness
- Easy care, low crease, dimensionally stable
- High colour brilliance and fastness to light
- High resistance to abrasion, hardwearing, long-lasting
- Upholstery fabrics provide excellent comfort when seated due to high breathability
- Short wash cycles at low temperatures save water, detergent and energy, suitable for industrial laundering
- Trevira fibres and filaments are certified to Oekotex Standard 100
- Meets the important international fire protection standards, e.g. DIN 4102 -B1; EN 13501-1/B-s1, d0; EN 13773 class 1; NF P 92503-507/M1; BS 5867, Part 2 Type C; UNI VF 8456/8457 - classe uno; EN 1021 Part 1 + 2
- No after-glow and only very slight development of smoke fumes in the event of fire
- Supported by general test certification on protection against fire
- Testing and approval of trademark ensures safety
- As well as the contract business, also ideal for private sector usage

This product does not protect users or others against disease-causing or food-borne bacteria. Always clean this product thoroughly after each use.
