## Vescom, the brand with added value for your contract interior

Guests at hospitality locations wish to feel welcome from the very first moment. They expect to be received warmly and to receive the best possible service. The host, hostess and employees have a key role to play in this. But other factors also have an impact on the perception of guests... Has the space been fitted appropriately? Does the interior exude the correct mood? Does it fit in with the expectations of guests? They are important conditions for a perfect stay. Now more than ever are guests aware of the quality and aesthetics of the space that surrounds them.

Additional criteria can help enhance aesthetics. Factors such as mood and style for example when architects, designers, contract fitters and customers select their interior. Functionality, durability and price/quality ratio play their part too. They also set high requirements that service, advice and delivery must meet. Where high-class quality is appreciated, Vescom products make the difference by leading Europe in the supply of high-quality solutions in the area of wall finishing, upholstery and curtain fabrics.

The rich diversity of the designs, colours and materials of the Vescom collections create unlimited possibilities. In short Vescom can provide everything needed to create a beautiful and functional interior customised to meet the preferences of customers.

**“Vescom has an unbelievably varied collection, and is thus always able to find the perfect design, colour, and texture, regardless of which hotel it is working for. Our close communication with our sales service, our sample service and our order processing staff ensures we are able to fulfil our expectations of what a market leader entails. Our office philosophy the ‘Shaping Atmosphere’ has been exquisitely applied to this collection.”**

JOI-Design  
Interior architects / Hotel designer, Hamburg

# wallcovering

Vescom is the market leader in the area of the development, production and distribution of high-quality wallcovering. The extensive vinyl and textile wallcovering collection is amongst the best in the sector. Wallcovering by Vescom can be supplied in hundreds of designs and in an unexpected quantity of colours and structures. In addition, our vinyl wallcovering can be delivered with customised prints whether it be for branding, applying graphic designs or a photographic image on wallcovering. Or even designing your own personal wall with the Digital Wallcreator. Everything is possible with wallcovering + print! With the trusted Vescom quality and durability.

---

IMO

**“Vescom is, in my opinion, the best choice there is, as they combine both knowledge and creativity. Implicit knowledge is extremely useful to professionals such as us. Moreover, Vescom offers a range of differing colours and designs, which give 5\* hotels that little bit extra – both for the customer and the proprietor. What is crucial to us is that Vescom is always well-prepared, and knows how to deal with most problems that may occur in our professional career and in the future.”**

Marc Desmet  
Chief Engineer  
Kempinski Hotel Dukes' Palace Bruges

---

# upholstery

The textile and vinyl upholstery collection especially developed for the contract market consists of dozens of designs in hundreds of colours. Trevira CS, wool and mohair serve as the basis for our upholstery fabrics. Vescom's vinyl upholstery distinguishes itself because of its functionality and originality.

The aesthetics, functionality and durability of Vescom upholstery are highly appreciated not only by architects, contractors, interior decorators and the industry but also customers and end users. Vescom upholstery is perfect for intensive use.

THE GRAND  
HOTEL

**“We are committed to innovating the hotels. Vescom has shown a versatility of products with which we can create, without restrictions, cheerful and elegant environments with a modern touch, in addition to commitment to the time frame and quality of installation.”**

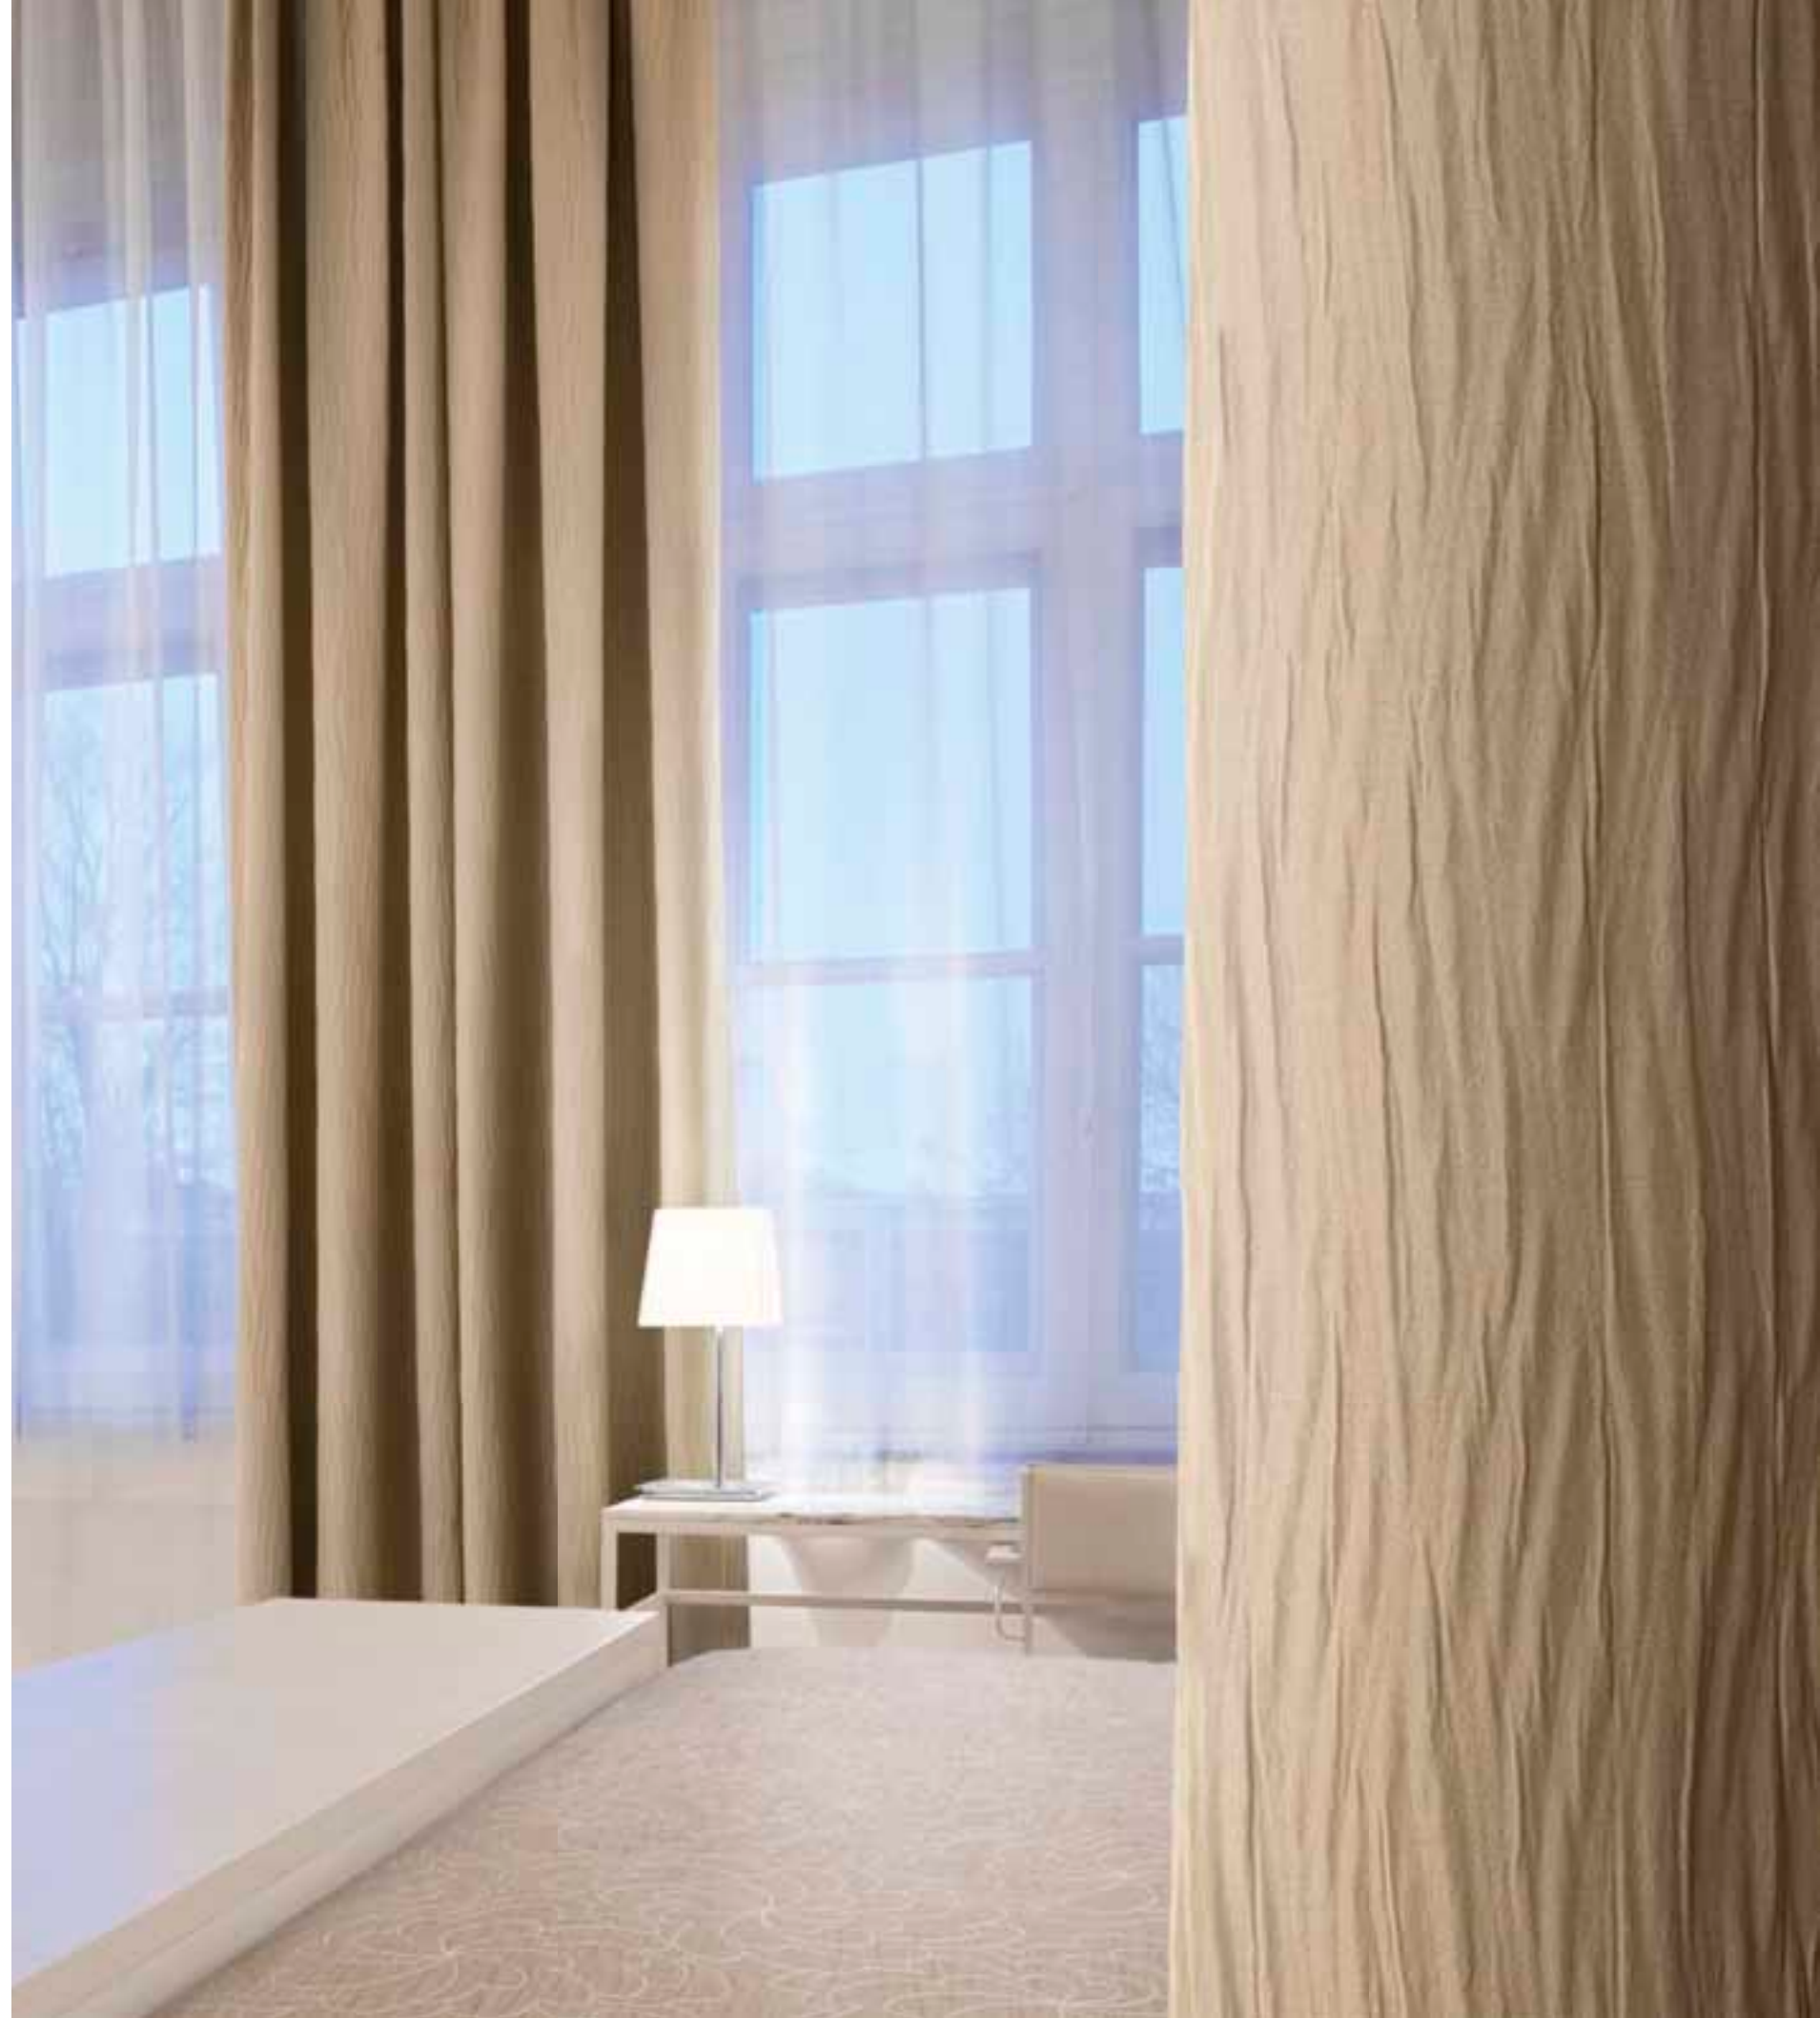

Ana Fiorda  
Purchasing Coordinator  
Accor Latin America

---

# curtain

The Vescom curtain fabric collection consists of plain, woven and structured fabrics, sheers and blackouts. Thanks to innovations in Trevira CS yarns, every curtain fabric offers a more individual perception with regard to structure, design, colour and material expression. Each design has its own look and feel. The whole collection comprises many qualities elaborated in hundreds of colours. Suitable for all types of applications: to partition a space, as heat insulation, to dampen noise and, of course, to black out. This all means that Vescom can offer the right solution for any interior. And every time again and again... functional and mood enhancing.

## Vescom curtain

# Vescom

Vescom develops, produces and distributes high-quality interior products for the international contract market: wallcoverings, upholstery and curtain fabrics. Distinctive designs and sustainable materials form the basis of our collections. Top service determines the durability of relationships. Vescom's products are supplied mainly the hospitality, healthcare, office and education sectors. In addition to production facilities in Europe and North America, we have a considerable network of sales offices and distributors all over the world.

Vescom offers collections within which sustainable choices can be made. Since corporate social responsibility goes further for Vescom, we produce while making sure that the environment is burdened the least. We choose to separate and control the disposal of residual materials whilst fully aware of our actions. Vescom is ISO 14001 and ISO 9001 certified.
